S. A. Widney made the closing address of the meeting, in which he said that he was a Prohibitionist, and would not object if the committee would indorse the candidates placed in the field by his party. Still, he was in harmony with this movement and would not cast a straw in its way.

After his address the meeting adjourned.

THE OLD EXECUTIVE COMMITTEE.

The Executive Committee of the old Citizens' non-partisan movement, held a meeting yesterday afternoon, at which Judge Widney presided. After discussing the present situation at some length, it was formally decided that the committee would take no part whatever in the approaching municipal election. This is the committee which figured in the election last December.

GENERAL OBSERVATIONS

On the Situation of Affairs—Primaries and Conventions.

Things were exceedingly warm in political circles all day yesterday, especially in Democratic curbstone rings. The mossbacks are all at sea, so far as the head of

will do the same thing this time if he i placed on the ticket.

On the other mand, the leaders of the party are afraid of him for the reasons that he has not come up to their expectations, and they have forebodings that he will be snowed under if he is nominated. There is still another class of bosses whe think the old man should be given a chance to serve out a full term. They have been disappointed in him, they say, but they do not think he should be fired out after he has served only two months. The whole gang are by the ears, and all day yesterday they were rushing around the city like mad. The limitators of the blind boss of San Francisco are in the field and declared themselves in several different languages yesterday. These fellows don't exactly want the earth with a barbed wire fence around it, but they do want to see money pouring into somebody's pocket from the gambling joints. They believe in corruption in politics from the ground up, and they will spend all the money they can get their hands on to carry their point.

THE REPUBLICANS.

Things are more harmonious in the Republican party than during the last Republican party than during the last municipal campaign, and yet the managers are not working as well in the harness as they should. There are too many candidates in the field for Mayor, and the chances are that the contest will be redhot. The friends of Gen. Mansfield are working night and any, and seem to be confident of success. Mr. Hazard did not announce himself until day before yesterday, but he is taking advantage of his long residence in this city and is doing all in his power to secure the nomination. Judge Fitzgerald's friends were out in force yesterday, and seemed to be confident of drawing a good vote in the convention, even if their man is not the choice of that body.

January 30, 1886. The will was probated December 27, 1886.

The allegations are that the document purporting to be the last will and testament of Maria Rhodes, deceased, was not her last will and testament; that said document was procured to be made by the menaces, fraud and undue influence of defendant, Mary Zacharias, over and upon said Maria Rhodes, and that said document was made while said Maria Rhoades was under duress and in fear from menaces of said defendant, Mary Zacharias. That in the year 1884, and at all times thereafter, said Maria Rhodes was of unsound mind, and was not capable of making a will.

The action is brought in the names of John Rhodes, Sarah Huuter and George J. Hunter. Mitchell & Knott are attorneys for plaintiff. The property involved is the west portion of lot 5, block 42, with a frontage of 60 feet on College street, running back 130 feet along Adobe street. December 27, 1886,

Ah Hing Calls iller to the Door of Her Cabin and shoots Her Through the Breast-The Murderer Makes Its Escape.

The row which has been going on beween two factions in Chinatown for some nonths past over a Spanis-Closer's culminate the control of the Woman by a notorious highbinder, known as Ah Hing, under peculiarly brutal circumstances. Threats have frequently been made against the woman, and a few weeks ago a Chinaman with whom she had been living assumed the with a law pharm, and however the control of the control o

after which the woman was wrapped up in blankets until the arrival of a wagon, when the was removed to the police station and Dr. Choate sent for.

Nothing could be learned positively as to the actual facts of the shooting, as there were no eyewitnesses. There were, however, several stories affoat, among them being one to the effect that the woman was a very important witness in a Chinese case which is to come up today, and that as she had refused to swear as she was wanted, it had been determined to get rid of her. Another was that there was a dispute between two men about which should have the woman, and that one of these men had shother.

The woman is said to be a native of Peru, The woman is said to be a native of Peru, and came to this country some time axo, irst living in San Francisco, and removing to Los Angeles about two years ago. She went by the name of Ah Kim, and was said to be a halfbreed, her father being a Spaniard and her mother a Chinese woman. Her real name is said to be Amelia Fajardo, and several persons who claim to know say that she is a Spaniard. The woman is quite an accomplished linguist, and speaks Chinese, Spanish and English, but is to all intents and purposes as much of a Chinese as any native of the Flowery Kingdom.

THE WOMAN DEAD.

THE WOMAN DEAD. The woman died at the police station last night at 9:20 o'clock. She was conscious up to within a few minutes of her death, and made a statement to Officer Sanchez, giving a brief sketch of her life and the facts of the merder. Her real name, she said, was Amelia Fajardo and she was a native of Lima, Peru. Her parents, she said, were well-to-do people, but that when she was an infant she was stolen and taken to China, where she remained for some years, and married the Chinaman who had stolen her. This man was an actor, and he up to within a few minutes of her death. stolen her. This man was an actor, and he afterward brought her back to Linna, where her father compelled the Chinnaman to legally marry her, as she would not leave him. She then came to San Francisco with her husband, where they remained until the opening of the Chinese theater on Alameda street, when they came to Los Angeles, and have since lived here. Last evening she says a Chinaman came to her house and knocked on the door, and when she opened it he asked her where another Chinaman was. She replied that she did not know, when he at once commenced shooting at her. The woman said but one shot was fired, but in this she was probably mistaken, or did not under; stand the question, as the officer says he heard four shots clearly and distinctly. She said the Chinaman came up from San Diego only about two weeks ago, and that her husband knowshim.

As soon as the woman died the Coroner was notified, and the body was removed to Orr & Sutch's, where an inquest will be held today.

The detectives were nearly all put on the case, and put in the night searching for the murderer, but up to a late hour he had not been captured. It is probable that he is being concealed by his friends, and will be got ent of the way as soon as the excitement dies out, unless some of the friends of the murdered woman or her husband can get some trace of him, in order to give the officers something to work from.

AN EFFORT TO FIND THAT BIG SYNDICATE.

Results-Who Are the Los Angeles Members?-A Sale of the Puente Wells Reported.

The telegraphic columns of The Times yesterday morning contained quite a long dispatch from Pittsburgh to the effect that a gigantic scheme for the development of the California natural gas territory is now in progress.—It was represented that the capitalists who are at the back of the movement are George Westinghouse, Jr., a Pittsburgh millitonaire, and the most prominent stockholder of the Fuel Gas and Electric Company, as well as a number of leading members of the Philadelphia Natural Gas Company, a number of prominent and wealthy residents of California, it was said, had taken stock in the new corporation, and the intention is to begin operations at once. The same company is to develop the oil-producing territory of California, but operations in that line will not be commenced until the gas development is well-under way. The territory in which experts say plenty of this natural fuel is to be found is located in the southern portion of California, not far from Los Angeles. So the story runs.

"The gas is all in the dispatches, I am afraid," said Lyman Stewart yesterday to a Times reporter when questioned about the natural-gas syndicate said to have been formed in the East. The Associated Press dispatch above referred to was the subject of general comment yesterday by business men throughout the city. Mr. Stewart stated that he had not known of any movement of the kind started for the immediate development of natural gas, and he could not be lith, and several big excursions will be compelled to conjecture the location of a field of operations, although it was announced to be in the near vicinity of Los Angeles. The Associated Press dispatch above referred to was the subject of general comment yesterday by business men throughout the city. Mr. Stewart stated that he had not known of any movement of the kind started for the immediate development of natural gas, and he could not conjecture the location of a field of operations, although it was announced to be in the near vicinity of Los Angeles. His opinion was that nearly all those gentilemen in the city known to take an active interest in the question were inclined to treat the genuineness of the enterprise with a large sized grain of allowance.

William Lacy, upon being questioned disclaimed any knowledge of the matter, but said he had not much doubt that proper and systematic development would result in the hoped-for discovery.

A geatleman well informed on the developments and investigations so far made gave it as his opinion that, if there was anything in the announcement that the Westinghouses and others were interesting themselves in the natural-gas development in Southern California, their field of operations would be in the region of the Puente oil wells. He had received some intimations that there was a movement in that direction.

The secretary of the Chamber of Commerce was very buslly making inquiries yesterday, trying to locate some of the wealthy and prominent Californians cooperating with the eastern capitalists in gad evelopment, but they failed to materialize. He had talked with pretty nearly every prominent business man who would be likely to know when such an important matter was undertaken, and, while they hoped it would be done, they knew absolutely nothing of the enterprise so circumstantially detailed in the Associated Press dispatches.

One gentleman was found who says he knows Asiburner, who is mentioned in connection with the enterprise. Ashburner was at one time connected with the geological survey of Pennsylvania, and has the reputation of being a thorough-going eil

A QUEER PROGRAMME

That the Chicago Anarchists Jolli-fied With.

A gentleman of this city has received a programme prepared for a jubilee ball in Chicago in celebration of the recent decision of Judge Tuley favorable to the rights of the Anarchists to hold public meetings. It is very unique, being printed on a thin slab of wood with simutations of stamps, etc., to represent a cigar-box cover which, being translated, reads as follows:

"Big-mouthed Bonfield, so-called, 1888, "Wanted—\$1118, for soap. John Mike Co., Times. "The mouth no longer gagged; the tongue

loosed."
"Tuley, 1889.

"The designers of this nondescript, the Aurora Turnverein, have complied with all the requirements of ctiquette, every person is cautioned not to use this as a hand-kerchlef else the offender will be brought before the bar.

"Factory, Aurora Turner Halle, State of Hilarity.
"District, Dinnerpail avenue."
The similitude of a cigar box cover is secured by the representation of an internal revenue stamp across one end and a paraphrase of the usual "Caution" label.
The reverse of the queer card contains the order of dance and the names of the committee.
The board is punctured at one end and hung by hempen twine to go around the neck of the dancer, probably for a take-off on the so-called gag law.
The queer programme is at "Charlie's" barber-shop on Temple street.

Catarrh to Consumption

Catarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is therefore singular that those affi with, his rearrul disease should not make it the object of their lives to rid themselves of it. A BLASP AGAINST MONOPOING

A BLASP AGAINST MONOPOING

More the Great Grown-counts appeared to the property of the State State Sta the Interstate Commission gave the fact of abuses and errors, without making any charges of law-breaking, for which the company could have been made responsible for the acts of subordinates. But that letter was published by the New York World, and copies sent to Senators, with the suggestion by me that giant railroads would laugh at fines when their attorneys on salaries could postpone, year after year, actions brought, until the litigants were worn out and disgusted with hopes never becoming fruition. That the only method to strike down the villainies of soulless corporations was to inflict the penalty of penitentiary and fine upon every person connected with the railroad, who could be convicted of the illegal act. And that charge the Senate made last August; and the House conferrees have agreed in substance with the Senate; and the law will be passed this week and go to the President for his approval. The subordinates and employés will find that their day of being shielded by the huge corporation has passed; and that for each infringement of law there will be swift punishment visited upon the offender personally. If nobody eise will take it upon himself to see that the wronged and oppressed can obtain advantage of the powers now granted under the new law of going right into the Supreme Court of the United States, and demanding and receiving prompt action, without waiting for regular terms and district attorneys, I may take the opportunity of spending my leisure time in receiving these complaints, and appear as their attorney in the courts.

Common carriers are not granted vast privileges and benefits simply for their own profit, and to make them

in receiving these complaints, and appear as their attorney in the courts.

Common carriers are not granted vast privileges and benefits simply for their own profit, and to make them enormous fortunes. There is a corelative duty attaching to every franchise granted by the people that they shall derive proper advantages and services likewise. So it is the intention of the Congress to include distinctly in the present law all the express companies. It is contended by eminent counsel that they are now embraced in all these restrictions; but it is proposed to make it specific this year. From here to the Western States the express charges 15 or 20 cents per pound, and \$3000 or \$4000 per carload, when the railroad ships many kinds of goods through for about \$125 per carload. The syndicate which owns the railroad owns in great part the express, and until the past week the Pullmans. Whatever tends to create trusts and monopolies and break down competition between public carriers enhances the prices of all necessaries of life and makes the burtien more onerous upon the poorer classes—especially when, for the sake of saving wages, white citizens are discharged from the railroad work and Chinese employed at smaller wages. Wherein does the common carrier show itself beneficial to the community when it forestalls the market and

charged from the railroad work and Chinese employed at smaller wages. Wherein does the common carrier show itself beneficial to the community when it forestalls the market and raises prices of food, and at the same time creates a great class of impoverished unemployed white men and women in our midst for the benefit of the heathen foreigner?

Not content with the high prices, and the exactions under their illegal combinations, the railroads insist upon placing on their one-sided so-called contracts "released," "at owner's risk;" and they have the impudence to charge on freight such prices as \$3.95 per 100 pounds, and insert in their blank that they will only be "responsible for \$5 per 100 damage." Of course this is a premium offered for thieving, if it could be enforced, as valuable packages go forward worth \$100 or more per 100 pounds. The subordinate has only to steal it and claim that it was destroyed, pay the \$5 and put the balance in his pocket. Time and again the courts have decided that such conditions are utterly void, there being no consideration, even if accepted by the shipper. Hundreds of people, ignorant of their rights, are swindled every month in this way. The last decision on the subject was rendered by the Supreme Court of Kentucky on the 21st of November, 1888; Spalding vs. Adams Express), in which the Court declared it was against public policy to permit a shipper to contract not to claim the full damage done by a common carrier, and that the provision inserted by the express stipulating that they were not to be held responsible for breakage of glass packages was utterly void, and a judgment for full value was rendered ugainst the express.

The Southern Pacific has been refusing to carry freight to El Paso, and

glass packages was utterly void, and a judgment for full value was rendered sgainst the express.

The Southern Pacific has been refusing to carry freight to El Paso, and will greatly worry that community, though the railroad must be beaten in the end; and if the merchants would go into court to have the corporation fined it would take many a \$1000 bill to settle the count. The rate per carload from San Francisco to the Missouri River on sugar is 65 cents and is now \$1 on beans. Before it was 60 or 70 cents. El Paso is hundreds of miles shorter in transit, and yet on sugar the Southern Pacific refuses to ship at less than \$1.60! As you, perhaps, have not seen reference to the litigation I give you the statement:

"Judge Falvey's court yesterday was engaged in the hearing of a case of more than ordinary importance to every business man in El Paso. In October last I. Hass ordered a carload of sugar from San Francisco, to be shipped, in care of himself, to the City of Mexico; and when the sugar reached this point Mr. Haas, by replevin, secured possession of it and placed it in his store at El Paso. The freight rate from San Francisco to the City of Mexico was \$3 per hundred on the sugar, but for hauling it to El Paso the Beuthern Pacific

and the Missouri and Mississippi River States as completely as though these tributaries were part of a foreign empire. During the period previous to the formation of the Transcontinental Association the produce merchants of this State had boldly reached out, and had succeeded in obtaining a large portion of the business of Nebraska, Colorado and Missouri. It was not uncommon, during the season, for six or eight carloads of beans to go east daily, or for a similar quantity of vegetables, cabbage, potatoes, etc. The new rates, however, prohibit any such shipments. It is impossible for the dealer to pay a rate of \$1 per 100 pounds to the river on these products and compete with the growers of Wisconsin and other States. Under the old rates, ranging from 60 to 70 cents, it was possible to obtain a fair share of the business. The old bean rate never went higher than 75 cents and the size of the shipments encouraged growers in the State to sow a tremendous acreage, thus producing an immense crop. It is a fact that not one-half of this in the State to sow a tremendous acreage, thus producing an immense crop. It is a fact that not one-half of this crop has yet been sown. The warehouses of the State contain thousands of tons of beans, which are useless under the present condition of rates. Another California staple—canned peaches—is also suffering a set-back for the same reason. Only very diminished cargoes of canned goods, beans and other California products are being shipped East. In fact, the overland transportation interest is in a state of actual stagnation.

The traffic men are gradually realizing that something is up; that causes outside the general lull after a storm are conspiring to stop shipments, and, consequently, produce revenue. The reports of the secretary to the general manager and vice-president speedily find their way to the traffic department, upon which devolves the work of furnishing the business for the operating department to take care of. The impression is gradually growing that ing department to take care of. The impression is gradually growing that the rates on California products are too high. The recent adjustment of the transcontinental tariff in Chicago resulted in a general advance, which has hitherto been chiefly effective in checking the enterprise of California shippers and forcing them to confine their operations to this side of the Sierras.

AN ACCUMULATION OF STOCKS. The result, of course, is a tremen dous accumulation of stocks, which will interfere very much with the prosperity of the State during the coming year if some means cannot be devised to get rid of the surplus. The question has assumed such serious proportions, and the results of the accumulation of canned goods, etc., are likely to be so disastrous that the managers are seriously thinking of having the rates on California products reduced. Shippers argue that if the raliroads can afford to haul sugar and barley to the Missouri River for 65 cents, they can haul vegetables, canned goods and beans at something under \$1 and \$1.10 per 100 pounds. The rate-making power, however, is no longer in the hands of the individual freight agents. Chairman Leeds alone is empowered to modify rates between meetings of the association. will interfere very much with the pros-

modify rates between meetings of the association.

There is the situation in a nutshell, "which will interfere very much with the prosperity of the State during the coming year." What does the syndicate care for that, if they can devise some means to pour the people's revenues into their coffers? Isn't it time for the Legislature at Sacramento to take cognizance of these questions, just as Nebraska, Missouri, Kansas and Texas are doing, and enact laws of the same character, with heavy penalties, such as Congress is passing and considering?

I have still something to say on the subject of their opposition to our people procuring chesp and delicious food.

Very truly, Blanton Duncan.

One of Jones's Gems.

(Barramento Bee.)

Sam Jones got off this brilliant gem in Los Angeles:

"You say you don't believe in hell.

Well, that don't make any difference; your opinion isn't worth anything."

That is the kind of rot this slinger of billingsgate uses as a means to bring people to Jesus.

Bill Arp's Story of Sam Jones.

Bill Arp's Story of Sam Jones's part in Sherman's march to the sea, in the Atlanta Constitution: "Sam Jones and a few dare devils hung on their danks, and stole horses and mules most every night and hid them away off in the swamps. Sam was nothing but a bop of 16, but they say that he stole over 100, and gave them all away to the poor people who had lost their stock. You see he got some old blue Yankee clothes and put them on, and went about among the guards who had charge of the extra horses, and he made out like he was a Yankee, too, and he generally carried with him a bottle of whisky and a deck of cards, and got them drunk and gambled with them, and before morning he would have several of their horses and mules away off in a swamp. He was just as full of mischief then as he is now, though his mischief was of a different kind. He was fighting the Yankees then, and he is fighting the Yankees then, and there isn't so much difference after all."

HE SAVED NY LIPE.

I consulted a great many physicians; none gave me any hope. At last I went to see one who had considerable reputation in the treatment of lung diseases. He gave me a thorough examination, and said my right lung was badly ulcerated, but if the disease could be kept from extending to the left, which was probable, I could be cured. I took new courage, and commenced treatment. I had had many severe hemorrhages from the lungs; was so debilitated that I was a mere skeleton; could not sleep at night for the cough and expectoration of mucus, and during the day I felt that my efforts to g t up the corruption must disgust my nearest friends. I could not sit up more than half of the time, and was unable to take any exercise on account of shortness of breath. My appoitte was poor, and food would often distress me greatly, and night-awasts were taking what count of shortness of breath. My appoints was poor, and food would often distress me greatly, and nightsweats were taking what little strength I had left. I am satisfied that Dr. W. N. Davis, 45% North Spring street, saved my life, as I could see that from the first my strength increased, my breath became longer, and I gained in fiesh so as to astonish even myself. I am in perfect health now, and have scarcely had a day's slokness for over a year. My cough is gone, all the distressing symptoms have disappeared, even to the hawking and spitting of mucus from catarrh in the head. I make this statement for the benefit of those who are troubled as I was, and to perhaps convince them that they are not past hope.

Go and have a talk with the Doctor. He will charge you nothing for an examination, and will tell you frankly if he can oure you. For further information address Warren C. Lindsay, Southwestern House, Mayo street,

Hereafter a new one will be published every week, and we will endeavor to convince the most skeptical that many socalled incurable diseases can be cured. He tells not what he can do, but what he has done, and if any one doubts his ability he invites an investigation, as every one whose name is used will reside in the city and can be interviewed. and can be interviewed.

ANNUAL TRADE NUMBER

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book

The Annual Trade Number of THE TIMES, now ready, is the most complete and in teresting publication of that character ever published in Los Angeles.

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and county; a thorough exposition of our natural resources—mineral, vegetable, commercial and elimatic; a review of the rise s—d progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully compiled exposition of the varied inducements which Southern California offers to the health-socker, the homescaker and the tourist, besides a number of interesting and valuable special articles on seaker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded into the compass of a hundred long letters, and for a few cents and the expenditure of a few minutes itme in writing the address you can send a friend more information than you could write in a month, even if you had all the facts at hand. For a foliar you can supply ten families in the frozen East with information that may lead them to join the army of pilgrims to Southern California, to their own and this country isadvantage. Thus, whether viewed from the standpoint of friendship or self-interes: 1. Wall be seen that no better use can be made of a dollar than by purchasing the rewith ten copic of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure can be bestowed in any other way for the same amount of meney.

What Should Be.

This so-called winter weather, which this section, is a marvelous surprise to those who have recently left the in- did much towards increasing in Amerhospitable regions to the eastward of the Rockies and come to dwell among us, and the universal testimony is that that the it would be impossible to find more perfect climatic conditions than exist here. A winter in which the orange ripens, and the more tender banana reaches its perfection in the open air, is not a winter invested with any ter-

rors even for the most feeble. The secret of danger in the colder climates of the continent lies in the extremes which exist, and also the sudden changes of temperature which prevail, and the discovery that the thermometer can be almost universally depended upon in this section is a discovery which will largely influence immigration. We have this in our favor over all that the best climates of the Southern States can offer.

With proper regard to sanitary laws and a proper care of ourselves, there is no reason whatever why the people of this coast should not show a remarkable degree of longevity, with active mental and physical powers sustained to the end. We can avoid here very much that tends to ill-health and decay that cannot be so completely escaped elsewhere. First of all, throughout the entire year we can breathe pure air. We do not need to sit in furnaceheated rooms and inhale a burnt up and vitiated atmosphere, for a little fire upon the hearth will keep us warm in our coldest weather; and then we do not need to close our doors against the farmer who lets his land lie idle, or air from January to December in its overgrown with weeds. suddenly finds his acres taken from him, and given to have no deadly miasmas which make se more provident and industrious. the evening and night air dangerous. With the vastness of our possibilities has seemed to come a spirit of improvidence which we onght to shake off, and which, when we are once rid of, will leave nothing in the way of our being wholly self-supporting, and raising right here at home what we now so largely import.

Fish and Oysters for California

A representative of THE TIMES had an entertaining and instructive interview the other day with Col. Blanto Duncan of Kentucky (now a resident of this city), relative to fish and eastern oysters, and the feasibility of propa-gating the latter in Pacific waters. Col. Duncan, who is a man of affairs, possessed of wide reputation and ver satile knowledge, has given the subject of pisciculture much thought and study, and is impressed with the idea that the eastern oyster can be planted and grown successfully in our waters, and thus be made to furnish cheap and delicious food for thousands and even hundreds of thousands of people on the western slope, who now have to depend upon eastern importations for their

supplies. The matter of seeking out and developing new fishing banks in the Pacific publication in a classified list of such has also been engaging the attention of the same gentleman, and he has succeeded in enlisting the attention of the Government, through its Fish Commissioner in Washington, in the enterprise. Already soundings have been made by a Government vessel, and important new fishing banks discovered in the ocean a hundred miles or so west of San Diego.

Col. Duncan's talk, if written out and published, would be found very interesting and instructive, and THE TIMES will endeavor to fish an interview out of him on the subject.

DIPLOMATIC DOINGS. Bismarck's Recent Offer and Bay-

WASHINGTON, Feb. 8.—[By the Asso-ciated Press.] The protocols of the official minutes of the conferences on Samoan affairs held in this city in 1887, together with additional correspondence on the sub-ject, were laid before Congress this after-noon. In his letter of transmittal Presi-dent Cleveland says that the Governments of Germany and Great Britain have con-sented to their publication. The first in-closure is a telegram from Minister Pendleton to Secretary Bayard, dated Berlin, February 1st, in which he says that the stateruary 1st, in which he says that the state-ment made to Secretary Bayard by Count Arco Valley, announcing that the German Government has rebuked its officers for the declaration of martial law against foreign-ers had anticipated the statement he (Pen-dieton) had been instructed to make to the

German Government.
On February 1st Secretary Bayard wrote to Count Arco Valley, German Minister at Washington, acknowledging the receipt of this advice, and saying it was in advance of the verbal note the Count had read him

BISMARCK'S PROPOSAL. The memorandum instructions of Prince Bismarck to the German Minister at Washington, read by the latter to the Secretary

of State February 4th, is as follows: "The present situation in Samoa regard-ing the interests of the three treaty powers renders it necessary to renew the attempt to bring the future of those islands to an understanding. The position of the three treaty powers makes it their duty to stop this bloody combat, accompanied by the barbarous customs of those not numerous tribes, for whose welfare, according to the judgment of the civilized world, it is the judgment of the civilized world, it is the duty of the treaty powers to provide. Prince Bismarck, in consequence, considers it the duty of the participating governments to put an end, by agreement of the treaty powers, to the troubles which have originated in Samoa, by the restitution of peace among the Samoans themselves, and so make an end of future bloodshed and the horrors of civil war conducted with barbarous cruelty among the natives. The best remedy seems to be a resumption of the consultation which took place in 1887 at Washington. According to the equal rights of the treaty powers, it seems proper that the place for negotiations should change in regular turn. I am directed to invite the Government of the United States to a conference regarding Samoa to take place at Berlin, and similar invitation has been sent the British Government. I am directed to declare that any supposition that Germany would not feel satisfied with a neutral position in the Samoan Islands is unfounded, as we have already declared in the last conference that it was neither our intention to put in question the independence of the island group nor equal rights of the treaty powers. We simply desire to create a condition which offers permanent security for bringing to an end bloodshed and decapitation, and which grants permanent safety to the commercial interests of the three treaty powers in Samoa."

THE PRESIDENT'S ACCEPTANCE.

"On behalf of the United States Government," continues the Secretary, "the President instructs me to express his acceptance of the proposal of the Government of Germany to resume the consultation suspended on the 26th of July, 1887; such consultation to be renewed, as it was undertaken, for the purpose of establishing a police and orderly stable government in the Samoan Islands on the basis of their recognized independence and the equal rights of the three treaty powers. The sooner this conference can be renewed the better.

A TRUCE ASKED. cellor to bring the blessings of peace and order to the remote and feeble community

"And in view of the late deplorable scenes of bloodshed which have been exhibited upon or bloodshed which have been exhibited upon Samoan soil, entailing a deeply regretable loss to Germany, it appears essential that a truce should be forthwith proclaimed, and that further armed action should be arrested. As the assurance of Prince Bismarck is that the pacification of the Samoan group and the occupation of a neutral position are his only objects, it is suggested in furtherance of the desired result of the conference that instructions to suspend beligerent action and await the action of such conference should at once be telegraphed to the respective officers in Samoa by the three treaty-making powers. To continue to prosecute a war of destruction and reprisal even upon admitted provocation would surely not consist with the objects of any of the three powers. It is hoped, therefore, that orders of the nature indicated will be forwarded to Samoa without delay. The announcement of the conference between the treaty powers, it is confidently expected, will at once cause a cessation of hostilities among the natives, and their speedy election of a king would certainly be a long step toward harmony. Except as the conditions may be changed by the election of a king by the natives, it is deemed essential that affairs in Samoa should remain in statu quo pending the conference. I may induige in the hope. noan soil, entailing a deeply regretable by the election of a king by the nativee, it is deemed essential that affairs in Samoa should remain in statu quo pending the conference. I may induige in the hope, which the adoption of this suggestion promises, of a successful issue of the conference. The Government of the United States will at once take steps to be properly represented at the conference in Berlin." The statements you read to me as emanating from the German consul at Samoa in which he finds fault with the couduct of Capt. Leary of the Adams and Mr. Blacklock, United States Consul, as violative of instructions of this Government to maintain an impartial attitude in the conflicts in Samoa, do not appear to be substantiated by the averment of any personal knowledge of the facts, but must be based on information and belief only, as they are repeated at second hand and must be classed as merely hearsay evidence. These conflicting statements of the German Consul will be brought to the attention of Capt. Leary and Mr. Blacklock, and their reply will be communicated. Much allowance must be made for the excitement prevailing in Samoa, which is not favorable to accuracy or mederation of statement, especially of those concerned as actors."

THE PROTOCOLS,

Negotiations That Failed Through Washington, Feb. 8.—[By the Associated Press.] The protocol of the first conference shows that the German representative set forth that Malleton having notoritive set forth that Malletoa having notori-ously violated his treaty rights with Germany, and having but a small minority of followers among the natives, Tamasese having the support of the great majority, the election of a new King must take place. Then in order to secure peace and order in the islands a foreign representative should be appointed as advisor to the King, should be appointed as advisor to the King, and to act as a mandatory of the three treaty powers. He also suggested a renewal of the principle of absolute equality of the three powers on the islands.

Secretary Bayard suggested a scheme for a constitutional government for Samoawith a native legislature, and for securing its independence and autonomy, including the acknowldgement of Malietoa as King and Tamasese as Vice-King.

The English Government, through Sir Lionel Sackville-West, suggested an agreement among the treaty powers that one of them should, as the mandatory of the other two, act as advisor of the Samoan Government, and in view of the preponderance of Germany have the first term of five years.

SACKVILLE SIDES WITH BISMARCK.

SACKVILLE SIDES WITH BISMARCK.

At the second meeting there was a long discussion of the details of the Government be created. Secretary Bayard consent

to be created. Secretary Bayard consented to a new election, but insisted that it be a native election, free and unawed. Sir Lionel Sackville-West assented.

Von Alvensleben inquired whether a certain time should not be fixed within which the election should take place. If it should not take place within that time, then the three powers should agree upon a king.

Bayard thereupon proposed to continue Maileton in office, but West and Von Alvensleben were in opposition. The latter also inquired whether the newly-elected king should not be approved by the powers, to which Bayard replied in the negative, insisting that there must be a free election.

GERBANY'S GREED.

GERMANY'S GREED.

Von Alvensleben then read a formal statement of the position of his Govern-ment, in which he says there is only one ment, in which he says there is only one course left—to place one foreign officer at the head of the administration and invest him with sufficient powers to take the measures required for the maintenance of peace and order, as well as for the prosperous development of commerce and intercourse. Germany, having the largest interests, should nominate the official. West assented to this. Bayard said the native government was to preserve its own existence.

government was to preserve its own easierence.

At the fourth meeting Bayard said he had not the slightest desire to exercise any preponderance over Germany and Great Britain, but he did desire to see the native influence upheld by the three powers equally and for a common purpose. He desired also to adver t to the impertance of the practical neutralization of the island.

At the fifth meeting Bayard declared that the German plan would result in inequality, which would grow larger, but West would not concede this point.

HOW THE CONFERENCE ENDED.

At the last session, that of July 26th, Mr. Bayard, in reviewing the German proposition, said: "The plan, as proposed and ex Bayard, in reviewing the German proposition, said: "The plan, as proposed and explained by Von Alvensleben is substantially
a foreign autocratic government based on
mercantile interests, and all experience has
shown what must necessarily result from
such an attempt, and that under it the defeat of the object we have all distinctly proposed, is certain. I do not see why we
should not recognize at the outset and encourage in Samoa a spirit of self-governing
freedom and self-respect. Germany and
the United States have heretofore given
strong indication of their desire for this by
their prompt disayowal of the arbitrary and
unauthorized acts of their respective Consuls (Steubel and Greenbaum), and it is
noticeable that the conduct of foreigners
has been the cause of more disorder and
discontent in Samoa than any spontaneous
action of the natives. Would it not, therefore, be well for us to adjourn the conference until autum, and thus give time to
the Ministers of Germany and Great Britain
to submit the protocols to their respective
governments in order that instructions may
be received by them of a more definite
character, by the aid of which we may be
enabled to come to an agreement?" Bayard's proposition was agreed to.

BAYARD'S DEFENSE.

His Baltimore Organ Replies to Sewall's Charges. BALTIMORE, Feb. 8.—[By the Associated Press.] Secretary Bayard said to a representative of the Baltimore Sun today that the date for the meeting of the Berlin conference had not been determined yet, but doubtless will be very soon, as the Administration is very near its close. The points to be contended for by this country will be the pacification of Samoa, the restoration of its autonomy and the protection of Amerifor hoping that these will be secured, and it would be very unfortunate if personal spite or partisan jealousy would succeed in

spite or partisan jealousy would succeed in throwing any obstacle in the way. Prince Bismarck has shown a disposition to settle the matter amicably. He and his son have gone out of their way to make the friendliest professions and Mr. Bayard, of course, can only take them at their word and meet them in a similar spirit.

The Sun continues: "The Administration might well say: 'Save me from my friends,' in view of the extraordinary conduct of Consul-General Sewall and Commissioner Bates. Mr. Bayard refused to make any comment upon Mr. Sewall's interview, but it may be stated that the department in asking for his resignation was not actuated by resentment because of his adverse testimony, but by the conclusion that to send Sewall back to Samoa, in view of his notorious hostility to Mr. Bayard's views as to what ought to be done, would be for the Secretary of State to stultify himself. Also Mr. Sewall has expressed himself in bitter terms toward Germany to Samoa on the eve of the proposed conference would be a siap in the face to Bismarck. Mr. Bates has a grievance. Part of his report on Samoa was omitted from the documents sent to the Senate. Consequently some of his labor was wasted. At the State Department it is explained that he was sent out to gather facts, not opinions, and that the part of his report which was put in the waste basket was an argument to prove that this country ought to establish a protectorate over Samoa. As this portion of the report was not germane to diplomatic negotiations and had no official status, it was not sent to the Senate."

He states that an attempt of the Germans was anticipated to carry off King Mataafa, was anticipated to carry off King Mataafa, as was done with Malietoa, and that when the boats put off from the German ships early in the morning the natives were on their ganed. The Germans refused to answer their challenge, and hostilities ensued. On Malietoa's side seven were killed.

After the fight the Germans directed their spy-glasses on shore, where a group of eight Samoans were seated about a fire roasting fowls. A shell was fired among them and seven were killed. On the German side, the attaché says, 21 were killed, and six of these had their heads cut off and burled separately. There were 48 wounded, most of whom it was thought would die. The Germans afterward fired the Samoan houses.

CHICAGO, Feb. S.—[By the Associated Press.] Little 6-year-old Annie Redmond, who was kidnaped nearly a year ago, and who was kidnaped nearly a year ago, and for whom search was made nearly paralleling that of the lost Charlie Ross, was returned to her home this evening by a singular chance. The strangest feature of the case is that the child has never been outside of the city, was at one time since the kidnaping a subject of court proceedings, and for two months past has been in a public of the city, was at one time since the kidnaping a subject of court proceedings, and
for two months past has been in a public
institution. A Mrs. Harper went today to
the Home for the Friendless, looking for a
child to adopt, and was attracted by a little
girl in the schoolroom whose face was very
familiar. On making inquiries of the child
she was told that her name was Flora Gurley. Mrs. Harper persisted in her questioning, and the little one finally said that her
"right papa's name" was John Redmond.
Mrs. Harper, who had been a neighbor of
the Redmond family, then discovered what
had attracted her. Mrs. Redmond was
summoned, and the little girl taken home.
It will be remembered that her father,
after vainly prosecuting a search for months,
became demented as the result on the strain
on his mind, and a few weeks ago was sent
to an asylum. When the little girl was discovered today a friend was dispatched to
the asylum to bring the father home, in the
hope that the sight of his child would restore his mind, it being weak only on that
subject. Redmond arrived this evening,
and the judgment of the physicians was not
at fault. When he discovered his child he
was overcome with joy, lifting her in his
arms and kissing her a bundred times. His
sanity was restored.

The little girl was taken to the Home for the Friendless last month by an officer of the Humane Society. She had been with a family named Gurley, living on Seventy-first street, passing for their child. Gurley had frightfully maltreated her, compelling her to do hard work about the house, and beating her nearly every day. A Humane Society officer was summoned by a neighbor, a woman who had discovered the child tied down in a cellar after having been beaten. Gurley was arrested, but on the plea that his wife was near confinement, and that his presence at home was absolutely necessary, the heavy fine against him was suspended. The little girl, nowever, was taken away from them and placed in the home.

There seems no doubt that she was ab-There seems no doubt that she was ab-ducted by the Gurleys, though why is not known. They have disappeared from the locality in which they lived, but a vigorous search will be made for them. Why the little child never disclosed her identity until questioned by Mrs. Harper is another of the mysteries connected with this singu-lar case.

THAT SECRET ORDER.

Why Illicit Sealers Were Not Seized in Bering Sea, New York, Feb. 8.—[By the Associated

Press.] A Washington special to the Post says the investigation before the House Committee on Marine and Fisheries, relative to orders given the commander of the revenue cutter Rush last summer, is pretty certain to result in a revival of agitation as

to jurisdiction over Bering Sea.

It appears that the captain of the Rush

seizure would be made. The information was circulated privately also in Canada, as a result of which a large number of Canadian scalers made a profitable catch of seals in Bering Sea last season. It is also stated that even a larger number of vessels will be fitted out the coming season for a similar expedition. The suggestion has been made that the Government did not desire to have any side issues raised pending negotiations connected with the fishery treaty, and this secret order to the commander of Rush was part of the policy by which it was hoped to avoid unnecessary trouble.

The Treasury Department has called upon the commander of the kush for the return to that department of this order, and the captain has returned it. It is said that prominent Republicans in Congress, in the two houses, are, however, in possession of information as to the exact nature of this order, if they have not a copy of it, and that the action of the Treasury Department will be made the basis of a searching inquiry in both houses.

STUBBORN SENATORS.

Force Used to Make West Virginia
Solous Do Their Inty.

BALTIMORE, Feb. 8.—[By the Associated Press.] The Sun's special from Charleston, W. Va., says: The joint Assembly finished the counting of the State ballots at 3 o'clock this morning, and the Senate repaired to its chamber te adjourn. It was found that the Republican membershad come away. leaving the body without a one away, leaving the body without a uorum. A sergeant-at-arms and two deputies were started out to bring in the absentees. Some were found in their rooms at the hotel and in private houses, with the doors barricaded, and they refused to come

out.

After fruitless endeavors to induce them to return, a posse of Senate officers in several instances broke down the doors of rooms and carried the members away by force. Several quarrels resulted, and in one case there was nearly bloodshed, an officer drawing a revolver on a particularly belligerent Senator.

When the absentees were all returned to the State House they were fined \$6 each, that being the maximum penalty.

MANY CINCHED.

A St. Louis Defaulter with Numerous Victims.

St. Louis, Feb. 8.—[By the Associated Press.] The flightsof Henry Dieckmann, president of the Mauntelborgess Milling Company, to Canada continues to be the chief topic of conversation in financial and commercial circles. The amount of his defalcation is estimated at from \$50,000 upward, but the exact figures are not obtainable. The heaviest loser will be his mother-in-law, Mrs. Meyers, whose estate he has been trustee for several years. For the past three years Dieckmann has been a familiar figure on the Merchante' Exchange, and has gained the reputation of a boild speculator. The attachment suit against him by Mrs. Meyers was the first intimation of anything wrong with his finances. As soon as notice of this suit was given there was a general stampede among the commission men to learn twester. It was found that his transactions is

ad been much larger than was supposed, od that he had dealings with nearly every mon the board, as well as with some cleage houses. It is now believed that a treason for so widely distributing his dealers. An examination of the books of the derent firms disclosed the fact that on the whole he has been a most unfortunate peculator, his good investments being ingriably followed by bad ones. Scarcel a single account shows him to have bee anything but a loser. Dieckmann leases an invalid wife and three children, to eldest but 7 ye ars of age.

A DETROYING BOMB. Attempt to Wreck a Brewery with

New York, eb. 8.—[By the Associated Press.] A terric explosion this evening blew a hole thiugh the two-foot wall of David Stevenson's brewery and shattered hundreds of windws on Tenth avenue in the neighborhood of Fortieth street, where it occurred. Fortunally no one was seriously hurt. Who placed he dynamite bomb, for such it is believed we the cause of the explosion, is a mystery. Stevenson has lately been involved in libor troubles. John been involved in abor troubles. John O'Connell, president of the Ale and Porter Brewers' Protective Association, made Brewers' Protective Association, made charges against Stevenson that he was not paying his men enough, and though the charges were disproved a boycott was ordered. This was recenly removed, however, as unjust. Not one of his men left him during the fight, and how in the vicinity of the brewery it is thought that malice because of these facts promited the act tonight. John Dunn was drawing a glass of beer in a neighboring saloom when the explosion occurred and the glass was blown out of his hand and Ed Dunn, a brother, was flung back against a punp with a force that caused internal injuries.

Just at the spot where the explosion is thought to have been are five drying kilos, but Stevenson is positive that gas did not cause the explosion. The Fire Marshal, who was present, was of the ppinion that a bomb was thrown from the roof of a tenement across the way. It is stated at a drug store near the scene that four women were brought to premature confinement by the explosion.

The Pacific Guano Company in Financial Trouble.

were attached yesterday. They have as signed; liabilities, \$1,000,000. Boston, Feb. 8.-Glidden & Curtis, selling agents of the Pacific Guano Company, and of the Ohio and Western Coal Company, have assigned their heavy and large indorsements on the paper of the Guano

pany, have assigned their heavy and large indorsements on the paper of the Guano Company. They have loaned that company large sums in addition to their indorsements. The firm, it is said, indorsed the paper of the Ohio and Western Coal Company, a corporation with a capital of \$5,000,000, Glidden being the president. While it is thought they will pay all obligations, it is probable the company, will be placed in the hands of a receiver to protect all creditors. CHARLESTON (S. C.), Feb. 8.—The assignment of the Pacific Guano Company created a sensation in business circles here, aithough no one in Charleston is affected by the failure. For the past seven or eight years the company here has been in litigation with the State for royalty due on phosphate rock, mined in the streams at Chisolms Island, belonging to the State. The State won the suit and obtained judgment for \$5,000, and the case comes up for rehearing next week. Today counsel for the State attached the property to company for \$5,000. week. Today counsel for the State tached the property to company for \$54, Several attachments were also issued other renditors.

WASHINGTON NOTES.

A Democratic View of the Senate Washington, Feb. 8.—[By the Associated Press.] The computations made by the treasury experts upon the probable effects of the Senate Substitute Tariff Bill reached It appears that the captain of the Rush stated before the committee that he received a secret order from the Treasury Department relative to seizure of British or other vessels in those waters, the nature of which he did not care to communicate, and referred the committee to the Treasury Department for information. The Committee called upon the Treasury Department for information. The Committee called upon the Treasury Department for that order, and has not yet obtained a reply. A movement his been begun in the House to call upon the Treasury Department for a copy of the order.

From other sources it is ascertained that the order was that while the vessel was to continue its original cruise in Alaskan waters, ostensibly for the purpose of preventing the illicit capture of seals, no seizure should be made of either British or A merican vessels.

Last season, it is also stated, the British Minister was privately informed that no seizure would be made. The information was circulated privately also in Canada, as a result of which a large tumber of Canada and the committee on Ways and Means today, and were immediately sent to the printer.

Singular Mining Accident. LEADVILLE (Colo.), Feb. 8.—A most shocking accident occurred this morning at the placer mine belonging to the American the placer mine belonging to the American Smelting Company, whose superintendent, William Gleason, was killed yesterday by a failing rock. About 4 o'clock William Mallett and Thomas Sims went down to the bottom of the shaft, 200 feet, to see about the depth of water. After completing their examination they signalled the engineer to pull them up. As they started upward in the bucket a plece of timbering fell from the mouth of the shaft, striking the men on the head and crushing the skulls of both of them. Death was instantaneous.

Sought a Quiet Canadian Home. New York, Feb. 8.—A. S. Gookin, ca ier of the Manhattan Elevated Railro ier of the Manhatan Elevated Kailroad Company, deserted his post on Monday or Tuesday of this week, and it is thought he has sought a quiet home in Canada. The company loses about \$70,000 by Gookin's departure, it is said, but the officials profess ignorance of positive knowledge on this point. Gookin kept four different pay-rolls, and the method he employed for swindling the company was by crediting sums of money to the names of fictitious persons represented on the books as employés.

A Blood-ourdling Confession.
WILKESPAREE (Pa.). Feb. 8.—In the trial of "Red Nosed Mike," charged with the murder of Paymaster McClure and his assistant in the mountains last summer, the testimony today was strongly against Mike. His confession to a policeman was read in court. It sounded more like a dime novel story than an actual occurrence in real life. The cold-blooded details of the horrible murder and robbery were revolting in the extreme. Mike endeavored to throw the responsibility on Beverino, whe has not yet been captured.

Le Caron said that during the last fortulight he had read the documents relating to

the case, and that Anderson of the Home Office, at his private residence, allowed wit-ness to see the whole of the latter's correness to see the whole of the latter's correspondence with the Home Office. During the first three years of his service as a spy he received no payment from the Government. At present he was receiving only a part of his pay. Le Caron said he practiced medicine, kept a drug store, and had become rich. He had held a nigh military office in the Brotherhood, but never an executive office. Bradley of Philadelphia was now at the head of the executive. The Brotherhood in 1882 numbered 22,000 membership. It is now higher than ever, and increasing. The suppression of the league and arrest of Irish members of the House of Commons gave an impetus to the organization. The League and Brotherhood sent subscriptions to the league in Ireland. The Brotherhood tried to control the subscriptions intended for the league. The Brotherhood captured and controlled the league.

He connected Malloy with the Invincibles, and also said that Malloy was a member of a party formed in 1882 to murder Chief Secretary Forster. Malloy also assisted in the plot to attempt to murder Justice Lawson, Crown Solicitor Anderson and 13 Dublin jurymen who gave a verdict of guilty against the Fenian, Frank Hynes.

RIOTING IN ROME.

Unemployed Workmen Wrecking Property—Fights with Police. Rome, Feb. 8.—[By Cable and the Asso-ciated Press.] Fears recently entertained by the authorities that an outbreak would occur among the thousands of unem-ployed men in this city were realized today. This morning a great crowd of unemployed workingmen assembled and marched through the Via Condotta and other streets of the city, blackening shop fronts as they went, and in some cases entering stores and carrying of whatever plunder they could secure. Street lamps and windows were mashed by the mob, and on the Via Fra-ting a number of buildings were partly wrecked.

"San Francisco, Feb. 8.—[By the Associated Press.] The hearing of the application of Mrs. Sarah Althea Terry for the appointment of a receiver of the estate of William Sharon was resumed here this morning. Judge Mesick, for the defense, continued his argument of yesterday to the effect that the Circuit Court first obtained jurisdiction of the case, and that it had parameters invisidation to any court in the jurisdiction of the case, and that it had paramount jurisdiction to any court in the land. Among authorities quoted by the Judge was one decision by the State Supreme Court when David L. Terry was Associate Justice, in which that court decided in favor of the position now taken by the attorneys for Sharon.

Ex-Judge Maguire held that the Circuit Court had lost jurisdiction over the original subject matter when defendant waived priority in the Circuit Court by invoking judgment of the State Court on the question which constituted a subject matter for the Federal Court.

Judge Maguire spoke for four hours, He will be followed by S. E. Wilson in tomorrow's proceedings of the court.

California Waukesha! PURE WATER!

The CORONADO BEACH COMP'Y

Made a very valuable and important discovery while investigating the water supply of the Otay Yailey, San Diego county. They came upon a series of living springs, the water of which has aimilar properties to the celebrated WAUKESHA WATER

Clear, sparkling, agreeable to the eye and refreshing to the taste; one spring already yleids 5,000,000 gallons per day, and other springs can, by development, be made to yleid equal quantities. This water has been piped to South San Diego, Coronado Heights, and Coronado Beach, and used with the ubmost satisfaction and favorable results.

AN ANALYSIS Made of this late discovery by the cele-brated obemist, C. Gilbert Wheeler of Chicago, shows that it is exceptionally pure, and is possessed of highly medio-nal qualities, which act as directly and favorably on all kidney troubles as

THE WAUKESHA WATER. The above is fully borne out by the result of its use for several months among the guests of the Hotel del Coronado. Many severe cases of kidney disease among elderly people have been greatly improved, and others completely cured.

Manager Wyatt had little to say in the matter, and his own personal preference would have been to place the plat in a musical store, which is usually the case in large cities. Mr. Suesserott has a splendid store, and withal is a gentleman. Here is the statement from the pen of "Pro Bono Publico."

Manager Wyatt may know his own "Manager Wyatt may know his own business better than myself, but I should like to ask what motives actuated him in selecting the place for sale of tickets. I understand that Messrs. McEvers. Hurndall and Foster all were willing to have them placed in their respective places, and speaking for a number of friends (of course, not myself), it would be a great deal more satisfactory and convenient. I think, if Mr. Wyatt would canvass the business men he would be able to verify my statement."

That sparkling and lively operetta of The Squire delighted a large audience in Pickwick Hall last evening. Con-In Pickwick Hall last evening. Considering it was a performance by amateurs, the actors did well. O. W. Kyle as "Tom Fairplay" had a strong conception of his character, and his deep, rich voice captivated the audience. William E. Darrow as "Pompey," an aged negro, did fairly well, but his weight of years barred him from the start. Mrs. C. M. Ellenberger as "Cozette," the quadroon, and maid to "Mabel," did fairly well, but seemed to lavish her whole attention on "Squire Dellno," whose appetite was voracious. W. P. Keller as "Fritz Schneider" was dressed in true tion on "Squire Delino," whose appetitie was voracious. W. P. Keller as "Fritz Schneider" was dressed in true sauer kraut style, but lacked the historical pipe. His voice was weak at times, but stronger in the chorus. Mrs. W. P. Clapp as "Mabel" has a wish clear voice and sings to persist the chorus of the ch rich, clear voice, and sings to per-fection. Her acting, however, was a little faulty, but beyond this she was much composed. The other char-acters were well taken. The entertainment was not only a social but a financial success.

OPENING OF THE EXHIBIT. The grand preparations for the Loan Association exhibit are about completed, and this evening the new library building was ablaze with light. At about 7 o'clock the guests began to arrive, a great many in private conveyances and a large number on foot. At 9 a.m. the argument for prosecution was opened by H. H. Appel, and he was followed by defendants' attorneys, Judge Beardon and Anderson & Fitzgerald. C. C. Stephens closed for the plaintiff.

The case was given to the jury at 2 p.m., and it returned to the courtroom at 4:30, bringing in a verdict for plaintiff, with damages fixed at \$5000. It will be remembered that the amount originally sued for was \$100,000. The case seemed to turn on what the jury evidently considered maipractice—i.e., giving morphia to the patient on the morning of January 8, 1889—immediately after which the child relapsed into stupor, followed by coma and death, which ensued on the morning of the 9th.

A QUEER CHARGE.

How the Works of a Watch Were Changed. The other day a Mr. Smith of Santa Monica called at Montgomery Bros.' jewelry store, at 18 North Spring street, and left avaluable watch to be repaired.

When he called for the timepiece he did not notice that the works had been changed, for the reason that he is almost blind. When he reached home his family discovered that there was something wrong with the watch, and a careful examination was the watch, and a careful examination was made. Another jeweler was called on, and stated that the works were not worth over \$\overline{\text{0}}\$, while Mr. Smith's works cost\$28. He then visited Montgomery Bros.' place and asked if they had not made a mistake in giving him cheap works. They denied that the works had been changed. The District Attorney was visited and a search warrant was issued and placed in the hands of Jailer Darcy. A search was soon made, and Mr. Smith's works were found in a cheap case. The jewelers could not explain the presto change business, and simply said that they did not know how the change occurred.

LETTERS TO THE TIMES.

Pro and Con. FOR WARD NOMINATIONS Los Angeles, Feb. 8.—[To the Ed-itor of The Times.] I see that your paper favors precinct nominations. I favor ward nominations. I will give you my reasons briefly:

Ward nominations for delegates to the conventions, instead of precinct nominations, mean the nomination of Henry T. Hazard. Why? Because the Democratic wards—the Second, Seventh and Eighth—have 64 votes, only 4 less than the number necessary to nominate, viz.:

Hazard lives in the Third. It would be strange if he couldn't get the neces-sary 4, making his total yote 68! Vox Popull.

against ward nominations for the coming Republican City Convention.

Even the Democrats concede this principle in their apportionment. The ward plan practically disfranchises the Republican ward in the southwest part of the city, where the bulk of the Republican votes are located.

To put it a little more forcibly, the Republicans in the Democratic wards, who have a small and insignificant vote, put up a poor ticket and ask the body of Republican voters in the southwest part of the city to indorse and support it. They will never do it!

The fate that overtook Dr. French two years ago awaits the ticket thus nominated.

issued by the Real del Castillo Mining Company of Lower California. While it is true that there has never been any statutory provision made by the Legislatures of California and Nevada to define a miner's inch of water, yet it is not true that those law-making powers have ever wrestled with the question of defining the same; nor is it true that water was ever measured and sold to miners in a mining camp by the gallon. Any old California placer miner knows that a miner's inch, as established as long ago as '50, is the amount of water that will pass through a square inch aperture under a six-inch head or pressure, and the only exception to that rule was, where in some districts water was overonly exception to that rule was, where in some districts water was overabundant, a 10-inch head or pressure was allowed, as for instance on the Natoma grant in Sacramento county and several other districts that might

Who is Your Best Friend?
Your stomach, of course. Why? Because
if it is out of order you are one of the most
miserable creatures living. Give it a fair,
honorable chance and see if it is not the
best friend you have in the end. Don't
smoke in the morning. Don't drink in the
morning. If you must smoke and drink,
wait until your stomach is through with
breakfast. You can drink more and smoke
more in the evening and it will tell on you
less. If your food ferments and does not
digest right—if you are troubled with heartburn, dizziness of the head, coming up of
the food after eating, billiousness, indigestion or any other trouble of the stomach,
you had best use Green's August Flower, as
no person can use it without immediate relief.

Bewing Machine. OUR PREMIUM

SEWING - MACHINE!

HIGH-ARM

TESTIMONIALS:

Following are letters received by the Times-Mirror Company from subscribers who have purchased the Premium Sewing-machine brough us:

"GIVING PERFECT SATISFACTION."

J. W. Ross. Pasadona, writes: The Times-Mirror Sewing-machine is giving perfect sat-sfaction; in my opinion it is as good as any 165 machine. I have not done any heavy work on it yet, but I think it will do it all right.

"RIGHLY PLEASED WITH IT."

Mrs. Edwin Brown. Los Angeles: In reply to yours of 29th would state that I am highly pleased with the Premium Sowing-machine I received with the MIRROR. Gives every sat-faction; so easy to learn how to manage; does such excellent work; in fact cannot raise it too much, and would not take twice the amount it coat me.

THE MORE WE USE IT THE BETTER WE LIKE IT."
Mrs. S. A. Ware, Pasadena: I have used your sewing-machine since last July. The more we use it the better we like it. On fine and heavy work it is splendid. We have kried the attachment. In fact it goes ahead of your advertisement so far.

"LIKE IT BETTER THAN THE \$155 SINGER."
JOSEPH WISOn, LOS Angeles: The machine gives entire satisfaction. My wife likes is better than the \$125 Singer that it has replaced

"GIVES GOOD SATISFACTION."

S. W True. East Los Angeles: We have the High-Arm Machine and use it for light family sewing. It gives good satisfaction.

RUBS SMOOTH-AND SEWS BYERTTHING BUT "RUSS SECOTE-AND SEWS SYRRYRING MOY BUTTONA."

William P. Wade, Los Angeles: The repor of the chief engineer of the sewing department of my demestic establishment is to the effect that the sewing-machine lately furnished by you for \$22 arrived in good order and in due time, and has given entire estisfaction. It runs lightly and with very little noise and performs to perfection sil kinds of sewing work with the exception of buttons. [When the freight is paid to Eos Angeles by the Times-Mirror Company the price is \$85.50.]

"Yether 'me ALL AND LIKES 2000 MIRGOR MA-OBLES-BREET."
William L. Price, 228 Touple street, Los An-geles: My wife tried several 375 machines, and chose the Mirror Premium Sewing-ma-chine as an equal to the best in the market, for one-fourth of the money. It is perfect in all particulars, and admired by all who see it. My wife has been using it several months, and we both cheerfully recommend it to the pub-

TARE IN WORKMANSHIP AND MATERIAL AS THE HEGH-PRICED ARTICLE."

C. E. Spencer, Los Angeles: Having sold hundreds of the Remington Sewing-machines for \$85, which you are now offering with the Wannelly Minnon at \$22, \$255,50 when freight is paid to Les Angeles]. I wish to say that the reachine you offer is identically the sense as the high-priced article, both as to material, workmanship and capacity. Being a resident here and an experienced sewing-machine man, I will take pleasure in instructing any one in working the machine, in this place or vicinity.

,"IS DEEGGITED WITH IT."

Mrs. J. W. Stringfold. Pomona: The High arm Mirror Sewing-machine came in good time, in excellent condition, without scratch or blemish, and I am delighted with it. We believe the machine is all that you recommend it to be, and think it a rare opportunity for those who may want a machine to get a first-class one cheap.

"FERRECT IN BYENT RESPECT."

Mrs. E. C. Cranston, Norwalk: The Pris's arm Premium Brachine arrived in prime condition, and is perfect to every respect. Presight \$2.50, with first cost added, making \$22.50 for as good a machine as is usually sold through agents for \$75. Well pleased, [255.59 when freight is paid to Los Angeles.]

"VERLY MUCH PLEASED WERE IT."

Mrs. Martha Allison, Downey: I am very much pleased with my machine as far as I have need it, and feel safe in saying that I have just as good a machine as if I had given 850 fee it. Shall advise any of my friends to try this before buying any other, as I think it is fully as good as represented. "BURS LIGHT AND EASY - DORS THE WORK WELL." S. M. Shaw, Pasadesa: I can say in regard to the machine that it is well liked. It runs light and easy, and does its work well. It is a very obeap machine at the price you fur-sish it.

"EQUAL TO THE BEST SHE EVER USED."
William T. Parcel, Compton: The High-arm
Sewing-machine ordered from your company
was received in good order, and Mrs. Parce
says it is equal to the best of any other kind
she has everused.

"PROVES SATISFACTORY."
W.F. Beadley, San Gabriel: The sewing machine we received through your office proves satisfactory.

"WIFT THINKS IT THE BOST SHE EVER USED."

J. W. McLollan. Tustin City: We received
Premium Sewing-machine through your office,
and my wife thinks it the bost she ever used;

"SUPERIOR IN SOME RESPECTS TO THE REST."
S. A. Mattison, Los Angeles: My wife and saughter are well pleased with your Times-birror Sewing-mackine. They have used soweral of the best makes of machines, and you seal of the best masses of machines, and yes say your machine is superior in some respects e those they have used, and in no way infe-fer. They were at first afraid, as many are, no doubt, that it is too cheap to be first-class, but are now eatlafied that it is as good as assochines costing three or four times as much.

TIGHTENED THE SCREW AND SHE KUNS ALL
RIGHT."

L A. Myers. Nowhall: Yours of the 1st inst.
received. Will say in reply that soon after I
wrote you I discovered the cause of the
crouble. The little tensies serse in the shutle had worked loose and was nearly out, and
the shuttle thread, in sewing fast, would catch
a the screw and break. I tightened the screw
and it now works like a charm; no more breaktig thread or irregularity of stitch.

ONE OF THE BEST INVESTMENTS THEY EVE MADE."

Mrs. U. L. Shaffer. Orango: We received our High-armed Sewing-machine. In good order, and I am very much pleased with it, and consider it one of the best invostments we ever made. It is nicely finished, and runs strong and light, doing nice work. Any one needing a good machine I do not think can do better has invest see in the machine and Mirron, for its 50 when the Company pays freight to Los Angeles.]

MCRE THAN SATISFIED AND GLADLY RECO MERETHAN SATISFIED AND GLADLY RECOMMENDS IT."

Martha M. Shaffer, Orange: I thank you for sending to me for testimonials, as I have set are new machine in the parlor without even threading it, as I was very busy and had a good machine ready for work and used to running. So I did not take time to do anyling with the new one until I received your sitter. Then I brought mine and went to running it to test it. I was more than satisfied, and gladly recommend it to those who are a machine. I think I would have gained time to have used it long ago.

"EQUAL TO ANY \$65 MACHINE."

Mrs. A. W. Worm. Los Angeles: For the benefit of those who stand in need of a good sowing-machine. I will say that after using to "Premium Machine for about four months in and it equal to any \$65 machine I have seen.

A BOLD SCHEME

TO EVADE THE CHINESE EX-CLUSION LAWS.

A Mexican Grant in Lower Califor nia That Has an Object-Mongott ans to Be Utilized by the Shipload

ots have kept the heathens busy ever since the first efforts of the National Government to restrict this very undesirable class of immigration were inaugurated, and it is only fair to give the devil his due, and own up that the creatures have been fairly successful, of course. As soon as the imperfections in the existing statutes were pointed out, they were corrected, until it was thought that at last a law had been ed which the yellow rascals could not behind, and which at least knocked out if the story told to a TIMES reporter yester if the story told to a Times reporter yester-day is true, the importation of Chinese will soon be commenced on a grand scale, and in a manner which it will be exceedingly difficult to check, without the employment of a considerable army of men—enough, in fact, to cover the whole border between Lower California and the State proper, as that is the gate through which they expect to enter. The scheme is a big one, and, as detailed by a well-known San Francisco man who is in the city for a few days, is, in brief, as fol-

scheme is a big one, and, as detailed by a well-known San Francisco man who is in the city for a few days, is, in brief, as follows:

On December 10, 1887, the Mexigan Government, through Gen. Carlos Pacheco, Secretary of the Department of Public Works, Colonization, etc., made a concession of a large grant of land, consisting of a parallelogram, 300 square kilometers, in superficial area of gold placers and mineral lands in the Real del Castillo, Lower California, to Gen. T. Masac. The grant is a very valuable ene, as well as a large one, as the following English measurement will show, and is a plum in itself: Extreme length, 12 42-100 miles; extreme width, 932-100 miles; extreme width, 932-100 miles; extreme death Diaz prevailed on him to remain in the country, and it was through his influence that this immense concession was obtained. Gen. Masac is now in Los Angeles, but he expects to go to San Francisco in a few days in the interests of his scheme. The available farming lands will be utilized for colonizing purposes and for the disposition of the immense fields of gold placers they will be leased to the Six Chinese Companies of San Francisco, and a meeting was held in that city last Saturday (February 2d) to consider the matter, when it was decided by the companies to send reprepresentatives down to view the situation and pass upon the questions of lease and occupancy. And right here is where the big scheme comes in. The main object of the Six Companies is to import into California Chinese direct from China by the wholesale in this way, to wit: They will, as a starter, pring over and land at Ensenada a shipload of coolies to work in the mines. The Mongols will be distributed about over the various claims, when a second shipload will be ordered. On the arrival of the second lot, the first load of 1000 or more will be gathered together, and the new comers put in their places, after which the first consignment will be paid off and discharged, and instructed to cross over the line into California, their ultima

of ten as is desired.
Of course this story will be denied by the promoters of the enterprise, but it comes from a reliable source, and is worthy the attention of the Government.

Probably no system of practice ever adopted has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

ATARH.

Catarrh is often regarded by the patient as a cold in the head, and he offen expresses his satonishment at his remarkable tendency to contract a fresh cold. Indeed, he declares he is scarcely free from one cold before he takes another; and he is alwhys exceedingly careful. It is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of Catarrh may seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear, and he learns to his horror that instead of recovery from the disease it is somewhat changed in its character and has extended to throat the class of symptoms soon appear, and he learns to his horror that instead of recovery from the disease; it is somewhat changed in its character and has extended to throat the reading, speaking or singing, hoarseness at times occure, a sensation of dryness is sometimes felt in the throat, or it appears that some foreign substance, as for instance, a lair, obstructed the throat; there becomes a sense of languor and fatirue, the breath lessons upon a little exertion, a short, hacking cough, is peculiar sound in clearing the throat, as enough in the down throat there was not room a cough in the own of medicated vapor (not steam or other expiratory organs, but must be prepared for each individual case as they severally require.
